

# Larry Teeter's AIDS Foundation Houston Fundraiser 2008

After I finished my 100<sup>th</sup> race of marathon length or greater in November, I decided to celebrate by raising funds for AIDS Foundation Houston in association with running the Chevron Houston Marathon in January.

12/8/07  
Sunmart 50 mile

Sunmart is a trail run in Huntsville State Park, about 60 miles North of Houston. Not the best conditions for running 50 miles: muggy with highs in the 80's!

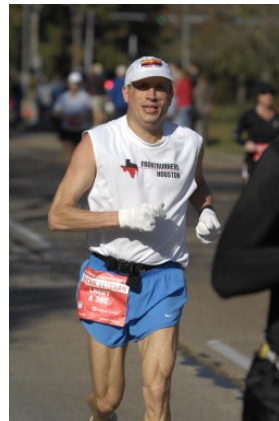

Bandera is a trail run in the rugged Texas Hill Country State Natural Area. I decided to take the 50K "jump jumper" option instead of doing 100K.

1/19/08  
Museum of Aviation  
Foundation Marathon

To make certain that donors got more out of me than just running another marathon, I've now completed an additional five races of marathon length or greater.

1/13/08  
Chevron Houston Marathon

Rocky Raccoon is also on the trails of Huntsville State Park. After I tripped & stumbled my way through the 50 miles, I volunteered all night at an aid station for the 100 miler.

Thank you to all my supporters!

More details at  
[www.larathon.com](http://www.larathon.com)

Thanks to fifty-six generous souls, I raised a total of \$3,141 for AFH! Proceeds from this effort will be dedicated to helping improve the quality of life for individuals and families affected by the HIV/AIDS.

1/5/08  
Bandera 50K

The Houston Marathon had perfect running weather; I ran it for the 19<sup>th</sup> time.

The Museum of Aviation Foundation Marathon is on Robbins AFB in Georgia. With temps in the low 40's & a steady rain, I was in a hurry to get thru with it; I beat my time in Houston by 11 minutes.
